29/03/2021

Hi everyone and I hope your are all well as light at the end of the tunnel comes that little bit closer.

Just a brief update as you know I will be stepping down as the Parish Council Chairperson and I have also decided to not continue as a Parish Councillor. I have given the latter some thought and due to substantial increasing work commitments I don't feel I will have the time or energy to take things forward or participate how I would like to. I will continue to support Olive as we have the accounts to complete for the financial year and will bring our website upto date with our last minutes before passing on all details.

A significant amount has been achieved over the years and overall I have enjoyed my time working to improve the area and the Parish Council. The challenges today are that much bigger than they were when I first got involved about 7 years ago but I feel having managed to get a key stakeholder group going for the area the opportunity to improve Rivington for the best for everyone has a real chance now as it is only through everyone working together that we can address the challenges we face today.

As a keen Rivington Resident I will follow closely the Parish Council progress and I look forward to seeing improvements to not only the Green but the wider area via the joint stakeholder working group.

Keep safe, the sun is starting to shine and future is what we make of it.

With best regards,  
Steven Jones
